Videx Cloudnected client

Videx CloudNected Client is a cross-platform application for smartphones and tablets that allows the user to interface to Videx IP products easily.

Register your account in the app and connect Videx IP devices by simply acquiring the device's QR code.

You can receive calls coming from your door panel wherever you are, without needing to keep the application open.

Call the connected devices and operate gates and doors even when you are away from home.

Note: this application does not replace the use of traditional monitors; the application performances are subject to the energy saving mode of the smartphone and to connectivity.
